7/5/81. Macfarlane CC ohana wins

By Stephen Tsai Advertiser Sports Writer

Outrigger Canoe Club saved its best for last yesterday: coming from behind to capture its own Walter J. Macfarlane Regatta at Waikiki Beach.

Outrigger, which stood as low as sixth at the mid-point, stormed back with wins in the older divisions, including the twomile senior men's event, to claim the

Macfarlane perpetual trophy.
Walter Guild, Outrigger's head coach a distant relative of former OCC president Macfarlane, said his club was determined to win the meet.

"We were ready for this regatta," a happy Guild said after the meet. "We pumped up, because this, meet means a lot to us as a family. Our club is like a family.

We look at this trophy yearly (the trophy is encased throughout the year at the Outrigger Hotel), so we know what it means. We just gave it our best shot. But we trained a little harder for this meet."

Outrigger finished with 74 points and Hui Nalu, which won last week's John Kaupiko Regatta at Waikiki, finished second with 85 points. Waikiki Surf Club and Healani finished tied for third with 42 points each

Guild sald Outrigger may have had an advantage in the race because all of its practices are held in the surf at Waikiki, but he emphasized it was the determination of the club that pulled it through.

We shot for this race the whole year long," he said. "This was the first goal that we accomplished for this year."

The regatta was held in near-perfect conditions as the waves peaked at 2-3 feet. Earlier in the week, OCC officials had feared high surf might necessitate the use of fiberglass canoes, but yesterday all the clubs paddled their koa

The waves were good for us, but they were slightly disastrous for some other clubs," Guild said.

One of the "disasters" during the 812

hour regatta was a crash between the Hawaiian Warriors and Surf Club during the women's sophomore event.

The Warriors, who had borrowed a canoe from Hul Lanakila after their boat was damaged prior to the regatta, lost control in the tough surf during the home stretch and rammed Surf Club's 45-yearold canoe, Malia.

The Surf Club canoe suffered four 30foot and three 20-foot cracks on the side opposite the ama. Also, a hole - estimated by Surf Club advisor Wally Froiseth to be about "30 inches by six inches" - was discovered in the floor near the fourth seat. The Warriors' boat suffered minor

damage.
After a 30-minute repair session, Malia returned to competition.

"We filled the holes and cracks with cardboard and tape," Froiseth said. "We have a tradition with this team — we race no matter what happens. A couple of years ago the whole front of the canoe fell off, but we still re-entered the race It's a challenge for us."

Froiseth said the accident came-at-an inopportune moment, since Surf Club was in second place when the crash took place

"That was one of the biggest waves that we caught all day," Froiseth lamented.

Surf Club still managed a third-place finish with 42 points. Actually, Surf Club ended the regatta tied with Healani, but they won the tie-breaking coin toss.

The Macfarlane Regatta has been an annual event since 1943.
