

MOLOKAI TO OAHU CANOE RACE

It was with great disappointment that the club was unable to enter the recent Molokai to Oahu Canoe Race because of a shortage of manpower.

Although we always entered crews in every race of each summer regatta, including the championships held on the Neighbor Islands, it has often been difficult to muster a crew for the annual Aloha Week event held in October.

Contributing to the difficulty has been the fact that the majority of our eligible paddlers are engaged in conflicting high school sports or are attending college on the Mainland and also that our club rules restrict representation in athletics to bonafide club members.

Fortunately for them, the other local clubs are not faced with the problems that confront us at this time of the year.
