

# Tiare Finney is 1999 OCC Club Captain

By Genie Kincaid

The Club Captain who will take Outrigger athletes into the next millennium will be Tiare Finney. Only the third woman to ever assume the post, Tiare brings with her a long history of athletic experience and accomplishment at Outrigger.

She is best known through the years for the numerous regatta and distance canoe racing championships she helped the Club capture. Tiare is also a world-traveling sports fisherman and the "Mama" of motorcycle mountain trail riding.

The Club Captain is the coordinating middleman between the Coordinating Director of Athletics and all of the Club's athletic subcommittees, including Beach and Water Safety, Canoe Racing, Volleyball, Running, etc.

There are presently 12 subcommittees which the Club Captain oversees in terms of annual budget and activity needs. The Club Captain is also charged with promoting OCC athletics, increasing total membership participation, and giving direction and organization to the subcommittees. Quite a time consuming task given the athletic budget was more than

\$150,000 in 1998.

But Tiare's up to the task with her can do (or at least, can try) attitude.

"I'd like to really facilitate the lines of communication between all the sports and the Board, and also let everyone know what everyone's doing so that the different athletes at Outrigger can support one another."

You go girl!
