RAINBOW RELAYS at Kanehameha field today. This is the annual University of Hawaii track meet and the time set for the start is 1:30 o'clock, on the dot.

Comes now the good old prediction and conglomeration of how they should perform, as promulgated by the writer after a consultation with Mui Kwai Lau, local Mandarin prophet and "half-pint" sports connoisseur.

Palama, reads the dope, should register some eighty points and carry off the honors. Outriggers will be right on the heels of the Pals' whippers and with one upset, are likely to turn the tables. University will place third with Army fourth. Now it comes to the performers to make the foregoing become history—something they seldom do.

CHANCE FOR UPSET

A lone upset, and bang, zip, will go the plane of trophies in a take-off towards the Outrigger beach camp. The club boys look exceptionally good in the mile relay, but with "Jinky" Crozier in a bad way, Palama looms as the logical winner. The Pals will garner the bulk of their digits in the medley, two mile, one mile and four mile relays which they should win with such stars as Kahoawai, Castanha, Gomez, Harrison, Nishihara and Harkins all listed to take the stick.

GRIDIRON FLASH

Hawaii's "Grange" Kaakua, is granted a win in the century dash because he can get out of the holes like nobody's business, and once under way, there's no stopping him. However, at his heels will be Oms, ready to disapprove of any snobbishness on the part of the football artist.

MCQUIRE AND MELIM

The 220 hurdles brings together two of the sweetest hurdlers that these parts have seen in some years of Sundays. Melim and "Duck Feet" McGuire have both scorched the three-foot steeples in twenty-five, and with these two after the medal, this event should run up the blood pressure. Indie of Palama is no slouch either, to say nothing of Oms of the Deane who is going to be in the money.

FIELD EVENTS

With DeMello as a kingpin, the Parker coached machine should annex the field honors of the day. The giant Pal star will have things his own way in the shot, and should grab another award for himself in the javelin throw. In the discus, we do not look for better than third or fourth for this star.

In the broad jump, again we have Kaakua using his quick getaway to super advantage. He will find plenty of competition in Ching of the University who has leaped into the 21 feet territory during several big shows.

"Lahaina" Gannon, in the high jump, will also find his field a foul one to plow. Friel, Hartman and Anderson are all headlines and any of these may spring off to fame.

The Beach club will have things all their own way in the pole vault with Gay, Elsha Andrew, Frazier and Wicke listed to take all the places for their squad.

That's the way we are calling them. Take it or leave it. The boys may make us look bad but who cares about that! We should worry, and we are not going to lose any sleep if the athletes show us up in the light of a bum prophet.
