

is the necessary training and plenty of opportunity to take part in competition. The rest will care for itself.

MARIECHEN ARRIVES IN FLORIDA

WORD was received yesterday by THE ADVERTISER that Mariechen Wehselan had arrived safely in St. Augustine and had commenced her training for the big events of this month.

Miss Lackie, probably her greatest rival in the world to-day, will also make her presence in Florida known this week and the two stars will have an equal amount of time to make ready for the championships.

Mariechen will run up against the strongest opposition this month, that she has ever encountered. This is indicated by the times made by Miss

Lackie during the past week in exhibition meets. If our swimmer wins, she will have earned her laurels from the greatest in the world.

'Y' ENTERS NATIONAL COMPET

THE Central Y. M. C. A. has entered the senior national hexathlon competition again this year. In the past the local 'Y' has won from all the organizations on the mainland, no less than three times, and local athletes are out to repeat again this year.

The fact that the Hawaiian 'Y' is able to hold its own with similar institutions on the mainland is indicative of the splendid athletic training received here in these islands.

The local 'Y' should enter a strong team again this year. We hope for another triumph.
