

# Outrigger Club Approaches Limit Of Membership

---

The Outrigger Canoe club's announced plan of limiting membership to 1,000 has increased the list of members to the point where present indications are that there will be no more memberships available by the end of November.

Normal growth of the club in the past indicated that the 1,000 mark would be reached by January 1, 1927.

The Outrigger Club was founded in 1912, by Alexander Hume Ford, J. P. Cooke and others for the purpose of reviving interest in surf-riding and swimming at Waikiki. Since that time, it has figured prominently in the world of swimming, and has had many representatives at the Olympic Games, and in meets of national importance.
