

# NORMAN ROSS TO PERFORM IN AN EXHIBITION SWIM

## 'Dad' Center Predicts Some Fast Time Will Be Made In Various Races

Norman Ross, famous swimmer, and seven members of the Olympic club swimming team of San Francisco, will perform this evening in the Mid-Winter meet to be staged at Punahou tank under the auspices of the Outrigger Canoe club.

The same swimmers will enter the various events again tomorrow evening.

Ross has consented to appear in an exhibition swim, according to handling arrangements for the meet. He is not eligible to compete in the races.

The Olympic club stars are in the best of condition, Center declared this morning. Center saw the visitors in practice Saturday and from their showing predicts that times will be close to Hawaiian records when these lads compete against the locals.

The Outrigger backers expect to see Sharp set up a fast mark in the sprint events, while others believe that the Crabbe brothers will furnish the surprise of the meet.

Warren Kealoha, Hawaii's backstroke champion, will be seen in action in his favorite events. Kealoha is in good condition and should make fast time. He is favored to win the backstroke races.

Water polo will be one of the features of the two-day meet. The Olympic club water polo team is rated as one of the strongest in the country. The local teams have been practicing for about two months to prepare for this meet and the brand of water polo exhibited tonight and tomorrow should be of high caliber.

Several changes have been made in the program, all of a minor nature. The revised program follows:

- 1—100 yards freestyle, boys under 15.
- 2—220 yards freestyle, open for men.
- 3—100 yards breaststroke for men.
- 4—Exhibition Hawaiian surfboard paddling.
- 5—100 yards freestyle, novice, Japanese.
- 6—100 yards backstroke for men.
- 7—150 yards service relay.
- 8—100 yards relay, commercial teams.
- 9—150 yards Bankers relay.
- 10—Springboard diving for men.
- 11—Water polo: Outrigger vs. Olympic.

An exhibition of high diving will be given by Joseph Pung.
