Association Football Players Of Today And Twenty-three Years Ago

The upper left-hand photograph is that of the S. A. A. A. of Hawaii team, champions of the 1900-01 season. The players are (top row): J. Lennox, J. C. McGill, J. L. Cockburn, D. W. Anderson, J. Cumming. (Middle row): E. G. Munro, A. W. Bottomley, R. Anderson (captain), J. F. Fenwick, J. H. Catton. (Bottom row): Kay, W. Goudie, J. H. Fiddes.

The upper right-hand photo shows the Maile-Ilima team of 1903-04. The players are (top row): J. C. McGill, J. J. Belser, R. Anderson, W. T. Greig, T. White, W. Bell. (Middle row): J. W. Harvey, A. T. Miles, E. G. Monro (captain), O. Mayall, D. A. Mackintosh. (Bottom row): J. Cumming, P. J. Harwood, J. M. Laird, J. H. Fiddes.

In the lower picture we have the Outrigger Canoe club's 1922 team, champions of Hawaii. The players are (top row): Bill Paty, Henry Chillingworth, Oswald Mayall, Bob Chillingworth, Fred Bailey. (Middle row): Elmer Davis, Watson Ballentyne, Esmond Parker. (Bottom row): C. Littlejohn, J. Hoe, Jack Rosemond (captain), A. Ross and C. F. Walker.

Hoots Mon: It Was A Gr-r-and Auld Game Then And Mind, I'm Tellin' Ye, 'Tis Nae So Bad Noo

By "JIMMIE" DUNBAR

BEFORE opening the history of soccer as founded in Hawaii, I would like to state here that some of the readers of my article on "Soccer" which appeared in The Advertiser, challenged the the statement that crowds of 100,000 to 140,000 appeared at any international games in the British Isles, and insinuated that I was exaggerating. I may state that I still repeat that such numbers congregate on these occasions. To verify my statement, I had a chat with an officer and soccer supporter, who left England less than two months ago with the S. S. Laconia on her world tour, and he stated in front of several Honolulans that in a league game between Tottenham Hotspur and Chelsea this autumn the crowd numbered 145,000! So progressive has the game become that many English grounds cannot accommodate those wishing to pay to get in, and the gates have to be closed half an hour before the game is due to start, he stated. I trust, therefore, that the doubters will be convinced on this authority.

I have beside me the sporting edition of an afternoon paper published Saturday evening, November 25, less than a month ago, and here are the attendances taken at random, the figures being returned by the clubs to the press and are accurate:

	Spectators
St. Mirren vs. Rangers	30,000
Everton vs. West Bromurch Albion	30,000
Arsenal vs. Sunderland	35,000
Aston Villa vs. Liverpool	40,000
Chelsea vs. Burnley	30,000
Total five games	165,000

And this on a Saturday which was inclement owing to fog and rain, as stated in the various reports!

I feel that no further proof is necessary to substantiate my previous statement. And now to the history of Soccer here:

I have consulted with many in Honolulu to find the person who actually prompted the adoption of Soccer here, but the honor has been passed from shoulder to shoulder and to extricate myself I will state from the information I can get that the following who formed the League champions in 1900-1901 had a lot to do with the flotation:

J. Lennox, Bannockburn; Ed. G. Munro, Millport; Norman Kay, Monifeith; J. C. McGee, Selkirk; A. W. T. Bottomley, Glasgow; R. Anderson, Selkirk; W. Goudie, Killnarnock; J. L. Cockburn, Dalkeith; J. F. Fenwick, Glasgow; D. W. Anderson, Dalkeith; J. H. Catton, Honolulu and Dollar Academy; J. H. Fiddes, Aberdeen; J. Cumming, Dumbarton, linesman.

This "select lot" represented the S. A. A. A. of Hawaii Association Football league, the captain of the champions being "Bob" Anderson. This championship team comprised Scottish players allied to the Scottish Amateur Athletic association—Hawaiian branch, and Jas. L. Cockburn was secretary-treasurer of the association in 1900—22 years ago. The champions were a lusty lot, and too strong for the Pacifics and Iolanis, so it was decided to break up the S. A. A. A. in 1901-1902, and spread out the players over other teams, hence the other clubs called the Maile-Ilima, Wanderers and Honolulans, etc.. The headquarters of the original bunch of players who started the game were Mrs. Turner's boarding house in Young street, and all meetings were held in the Scottish Thistle club, comprising two rooms in the Oregon block. The nucleus of the first Maile-Ilima team was composed of members of the Caledonian club who held their meetings at a house owned by Mrs. Dexter, Thomas square, where they resided. Most of the Scottish Thistle club members and players resided in the vicinity of Emma street with Mrs. Turner, near J. F. Morgan's home, and mauka of Emma square at St. Andrew's cathedral, and the battleground for practice was in a park where now stands the present large building occupied by the National Guard of Hawaii. It was while practicing soccer that two teams were chosen, and this made the first real contest. The first program under league auspices in 1900-1901 contained three teams with double engagements, the referee in those days who blew the whistle and received the praise or jeers of the crowd being J. W. Waldron. Refereeing even in those days was no sinecure! Punahou lower campus was mostly used, though Makiki park and Moiliili were also used as playing pitches. Both of the latter have been used for soccer this year. Twenty-two years ago the game contained other star players besides those already mentioned, such as C. P. Morse, L. G. Blackman, Geo. F. Davies, M. A. Cheek. The stellar stars were Wm. McWhirter, outside right for Honolulu, and Wm. Goudie, center forward. Phil M. Lansdale and Ed. Munro were the right wing forwards for Maile-Ilima and a dandy pair of fliers.

J. H. Catton was another stalwart familiarly known as "Johnnie," who, with the assistance of Bob, his brother, L. G. Blackman, and Simpson, carried the colors of the Wanderers with great credit in the early "nineteens" against the champion Maile-Ilima and Honolulans. Johnnie also captained the Punahous nine years later in the early formation of that club through the courtesy of the school principal, and the Puns twice won the championship, during which time Andrew R. Catton in goal, another brother now in California, gave great assistance to the team. Jim W. Harvey was another player of magnitude, coming from England with a Tottenham Hotspur and Chapham experience. Jim tells me that he was one of the school boys who started in the Tottenham Hotspurs, and in helping inaugurate this club, he helped to do one of the biggest things in English Soccer football. The "Tot Hots" today take their place with the finest in England. How true is the saying "From small beginnings," etc. So often do we find in business such a condition, a Sir Thomas Lipton, a Henry Ford, and hundreds of others. There were other teams in these early days, such as the Pacifics, Iolanis, and so on, so my many informants tell me.

Soccer and Health

I have always maintained that soccer is a safe and sane game to play and a health producer. In the foregoing I have given the names of the S. A. A. A. and they are, I believe, all alive and pretty healthy specimens, and they all played 22 years ago. Norman Kay is in Porto Rico and W. Goudie has gone to Australia, but right here we have in Honolulu Munro, Bottomley, McGill, Bob Anderson, Cockburn, Fenwick, Anderson (D. W) and Fiddes; at Aiea, Lennox, and at Makaweli, Kauai, "Johnnie" Catton, who is helping the game and sometimes plays a referee on the Garden Island. Of the others mentioned, we have in Honolulu Jim Harvey, worthy manager of where the MacGregor balls come from, and still fit to kick one; O. Mayall, the evergreen in Outrigger Canoe soccer, and playing a mighty fine game at fullback; J. M. Laird, who looks after the stocks and bonds in the Hy Waterhouse Trust Co.; Willie Bell, penman and golfer, and perhaps others are here unknown to me, carrying on to the last lap and still imbued with the spirit which had been laid down in their physiques by soccer football.

In the Old Game

The greatest goal-getter in these olden days was "Doon the Bum" Boyle, center forward for the Maile-Ilima soccer team, to which he also acted as trainer, and I am told he was some disciplinarian at that game. He learned his ball with Raith Rovers, a famous Fife team, and carrying his early training to Honolulu, he could find the "net" oftener with either foot better than any contemporary. Many a time he used to carry ball, goal-keeper and himself into the "net."

Billie Goudie, also a center forward for the Honolulus, was a goal-gatherer. The "sand-jigger" of the league was L. G. Blackman, who, although he might not score, could trick any opponent. He was Hawaii's most famous dribbler with the ball.

The best defenders in 1901-10 were McGill and "Bob" Anderson, both playing great team work, and their prominence in working together still stands out in the memory of their colleagues and opponents. Iolani College placed a well-trained schoolboy team in the field, L. G. Blackman, trainer, and his star players were two Chinese, Mon Yin and Johnnie Woo, both forwards. It also included J. F. G. Stokes, now at Bishop Museum.

Mon Yin is now in China, manager of an iron works. Iolani also included J. Anderson, now in Honolulu. Of the Maile-Ilima team of old, J. J. Belser, goal-keeper, has passed on; A. T. Miles is in Panang, P. I., Harwood is in Manila; W. T. Greig is here in the Islands and was called "Gunboat," and a very fine fullback; Tommy White is in the states, and D. A. Macintosh also went to the mainland. Harry Glass was in the Honolulu team and was partner to Kay, and he is still among us. I have already referred to William McWhirter, but he was such an outstanding figure in soccer that from the right wing forward position he was one of the finest ever seen here. He has frequently on the run curled a ball by a twist of the foot from the corner flag clear into and through the goal posts—this feat being one of the hardest of accomplishment in soccer football. The Maile goal-keeper considered the finest yet seen in the Islands, by name McRitchie, was with the Vampires of San Francisco when he left Honolulu. His saving was at times marvelous, and he was very hard to beat as many opposing forwards knew to their chagrin.

Mailes Fast

The Maile-Ilimas were a fast and clever aggregation and held the championship many times, as will be seen by the record of the Hawaiian Association Football League challenge cup appearing later. The winning of each championship meant a night of high "spirits" when the wine flowed in the good old days, and it is said that on one occasion the Mailes were so certain of winning that they sent previous invitations to their opponents asking them to partake of a well-stocked larder, liquid and solid, after the game. Their opponents were their guests that evening.

Other old-timers were Parrish and Green (now of Hilo), who served the Honolulus well in days gone by.

Cup Records

The history of Honolulu and Oahu football is well covered in the following table of results:

Season—	Winners—
1900-1	Scottish A. A. of Hawaii
1901-2	Maile-Ilima F. C.
1902-3	Pacific Association F. C
1903-4	Maile-Ilima F. C.
1904-5	Maile-Ilima F. C.
1905-6	Maile-Ilima F. C.
1906-7	Maile-Ilima F. C.
1907-8	Maile-Ilima F. C.
1908-9	Maile-Ilima F. C.
1909-10	Punahou F. C.
1910-11	Punahou F. C.
1911-12	High School Soccer team
1912-13	Healani A. F. C.
1913-14	Healani A. F. C.
1914-18	No contest on account world war.
1919-20	Healani A. F. C.
1920-21	Outrigger Canoe C. Soccer team.
1921-22	Outrigger Canoe C. Soccer tham.

Maile-Ilima won seven championships, Healanis 3, Punahous and Outrigger Canoe 2 each.

Since 1919 to date the clubs taking part in soccer have been Healanis, Outriggers, Rangers, Schofield, National Guards and Palamas, and the league has never really recovered the shock of the war years.

However, with President Fred Harrison, assisted by his board of executives, "Dad" Center, A. H. Jones, C. F. L. Walker, G. F. Low and the managers and team captains and players assisting, the future of soccer on Oahu looks more than rosy, and it is to be hoped that the colleges and schools in Honolulu will adopt the safe and sane game of association football in their off-season—December to March. Much is also expected from the official referees, Warren Dease and George McKinlay, two men of the highest integrity in Honolulu in the game of soccer.

Other Islands

I have not much information regarding the present season's program on the Big Island, Maui and Kauai, but I learn that leagues are being run on all three. Kauai has a big league consisting of six teams, Kekaha, Makaweli, McBryde, Koloa, Kapaa, and last year's champions, Lihue, who entered a team after a long time of suspense. The principal players are Jim Carmichael, H. Breckenridge, L. T. Bean, Marcellino, Dr. Glaisyer, R. Kapunine, W. Sinclair, Irwin (Derby County), Lindsay Fyre and others. Their season opens on the first Sunday in January.

I hope that my old friend "Doc" Adams will be able to get reports of doings on all these islands this season, as it is to be hoped the other island teams will visit Honolulu in 1923 to compete for the Fred Harrison challenge cup offered for inter-island contests, and the Honolulans wish to know what kind of competition they will have to meet. In conclusion, I feel I ought to mention the names of the players in the Outriggers who won the championship last season, and won it handsomely against Rangers and Schofield, their principal opponents:

Paty, E. Davis, Littlejohn, Hy Chillingworth, Ho, Mayall, Ballentyne, Rosemond, Bob Chillingworth, Ross, Bailey, Parker, Walker. I understand the champions will field this year from the foregoing: Littlejohn, Chillingworth (two), Ho, Mayall, Rosemond, Bailey, Parker and Walker. Their opponents for the cup and league championship are Palama, Rangers and Honolulu United. The latter team will comprise 75 per cent Schofield soldiers and officers. I am very much indebted for many of the foregoing statements to J. C. McGill, Robert Anderson and Ed G. Munro, and for photographs to J. W. Harvey and Esmond Parker.

Outrigger Canoe Soccer club champions at present: Paty, Chillingworth, Mayall, Bob Chillingworth, Bailey, Davis, Ballentyne, Parker, Littlejohn, Ho, Rosemond, Ross and Walker.

Villa Makes Easy Work of This One

(By the Associated Press)

PHILADELPHIA, Jan. 1.—Pancho Villa, bantam weight champion of America, today made easy work of beating Battling Murray, in their eight-round battle. The Filipino made a punching bag of Murray during the last three rounds.

A heading on a sport page reads "Egg Leads in New York Bicycle Race." That's nothing, a woman can beat an egg.

U.S.C. WAS TOO MUCH FOR PENN

(Continued from Page 4)

After this the teams took turns in intercepting forward passes. Campbell of the Trojans scored his first touchdown through center after good gains made by Baker and Galloway, half and fullback of the California team.

Hawkins, as tackle for the Trojans, booted a goal in the try for point. In the third period Baker gained 22 yards around right end and a series of short gains then carried the ball to the Lions two-yard line. Baker forced it over with two savage bucks. Toward the end of the game Hawkins missed an attempted goal from placement from the 29-yard line. Just before the close of the contest Palm made a 25-yard run.

Pre game statements showed that the Penn State team outweighed the Trojans about 12 pounds to the man. The average weight of the invaders was 178 pounds while that of the Trojans was 166. The data was as follows:

Southern California

Joie Ray Shone As One of Year's Best

(Continued on Page 4)

events in England. Further international competition is under way by the departure this month of a small team of three men to New Zealand, where they will compete with the best in the antipodes. The American team of athletes, all members of the San Francisco Olympic club, are Morris Kirksey, sprints; George Krogness, hurdles, and Jack Merchant, field events, will start their operations in New Zealand on January 1.

Track and field work on the Pacific coast was again up to its high standard as in the past. Neither California nor Stanford competed in the Pacific coast conference, due to these teams competing at the same time in Eastern meets. The University of Washington stands as the Pacific coast collegiate champion team, and its athletes made a remarkably good showing, not only in the conference meet, but in dual meets throughout the year.

No Meet

There was no regular Pacific coast A. A. U. title meet during the year. The nearest approach to this was a meet held at Sacramento in which all coast sections were invited to compete, but the eventual entrants were all from California and the meet was won by the Los Angeles A. C. G. Harrison Thomson of Los Angeles, but representing Princeton, won the national allround championship for the second year in succession.

Pacific coast standard records are now for the most part on a plane with national and world records, many of the coast marks being either national or world figures. As was the case with national records no Pacific coast marks of standard distances were broken. This, however, does not hold good with the collegiate records of the coast and in the annual Pacific coast conference several of the conference marks were smashed for this particular meet. This was the only meet of the year where standard marks for a specified organization were broken.

(By the Associated Press)

NEW YORK, Jan. 1.—William H. ("Wee Willie") Keeler, one of the greatest batsmen of all time, and a baseball hero of by-gone days, died of heart trouble here today at the age of 50. Keeler was a member of the famous Baltimore Orioles and originator of the expression "Hit 'em where they ain't."
