

LOCKER SYSTEM FOR CANOE CLUB

Outrigger To Install New Convenience; Lagoon To Be Filled

The Outrigger Canoe Club will have a locker system such as is used in the athletic clubs on the mainland within a short time.

Receipts from the fair held this month were sufficient to provide for this change and the board of directors at a meeting Tuesday evening authorized this improvement.

In order to provide more room for volleyball and children's playground, it was decided that the filling of the lagoon should be completed.

This change would allow ample room for at least two volleyball courts and provide quieter and better accommodations for those wishing to use the lanai and tables under the hau tree.
